About

Wendy Eloë

Business Systems Manager

Wendy Eloë is the Business Systems Manager at United Fiber/United Electric Cooperative where most of her work falls under "Other Duties As Assigned." She is a proud cat mom of 2 and you can pry her love of the oxford comma and double spaces after a period from her cold, dead, and elder millennial hands.

BBQ Frendo & Lady Chirpington

The Real Management Team

BBQ Frendo is loud, proud, orange from the streets and has never had the brain cell. Lady Chirpington loves being in the shower and eating her own vomit, but usually not at the same time.
